results vitally essential to the wolfare of a community. They establish confidence and e feeling of a curity emong law abiding citizens and throw first into the ranks of tim bretkers. That state foffing will be maintained in Marion If the police depart ment continues the rood work it started Saturday Lawlenshasa never will be on firely eliminated here any more than in any other city but a program of on-tant sigilance and militancy on the part of the police department will hold such activities at a minimum Law totators forced at all times to ne on their Lund through fear of apprehension and prosecution are certain to be held in check and prevented from operating on a scale of damaging propor

The blow struck by the police tepartment Salurday was not a knockeut punch for all gambling and other illegal operations but it does leave the boys on that side groaty and wobbly Thos are on the defensive and by heing kept there are not likely to do Marion much harm or profit tremendously from their business here

This Week, Maybo.

Last week has bequeathed to this week a puzzle in the mutter of the federal govern ment - spending intentions

Confu ion 1 traced easily to the fact there are men who call themselves Demo crats but me not new deal Democrate and that other men calling themselves new deal Democrats are not in all things Roose veltian Demeccata

Thu the President who is the chief Rooseveltian Democrat says he believes certain things should be done about the budget Promptly other Democrate disagreement with the President | They are is far apart as the poles. Mr Roosevelt is on the equator

One fution says he has turned tightwad and must be brought to his senses. He can't do this terrible thing to us they complain. But just as loudh, a other faction protests that unless Mr Roosevelt does turn tightwad-and in a hurry-there wid he the dirkens to pay Ifaidly anyone so far seems to think the President is just where he should be on the spending question

So no one really knows what the administration's final position is going to be May he its what Mr Roperielt ways it is but it might be what certain old line Democrats say it hould be or what some advance guard new dealers insist it must be to tring about the wholesale infintion they desire for some rea on or other

is hard to understand such things and tion can't be useds any simpler than they Maybe his week something will hap pan of legan to haupen to make them more
